

Reusable Bamboo Utensil Set

REDUCE YOUR FORKPRINT

REUSE. REPURPOSE. RePEaT.

We've got our travel mugs and our reusable shopping bags. How about a bamboo utensil set to round the perfect toolkit for life on the go? A handy carabiner lets customers clip & carry a fork, knife, spoon and chopsticks wherever they may roam. Perfect for a busy lifestyle and a precious planet.

To-Go Ware's **RePEaT** utensil holders give plastic water bottles a second shot at a useful life-and an opportunity to stay out of our landfills. Made of RPET (recycled PET plastic), we like to call it "**RePEaT**" because it lets plastic reincarnate into something kinder and gentler.

PRIVATE LABEL OPPORTUNITY

Put your brand on TGW Reusable Bamboo Utensil Sets and give employees and customers alike the gift of giving a little something back to the planet by thinking twice about what we throw away-and what we keep.

WHY BAMBOO?

- o it's beautiful, durable & renewable
- o it's lightweight and easy to take along
- o it doesn't stain or absorb flavors
- o it's made to be kept, not tossed in the trash

WHY RPET?

- o it's made from recycled plastic bottles
- o it gives new life to discarded plastic
- o it keeps trash out of landfills
