# DAYPACK

rePETe

The DayPack rePETe™ is an advanced, lightweight backpack made of durable, recycled PET ripstop and is designed for the adventurer in us all. This industry-leading DayPack is made of 89% recycled content and lists the recycled materials used in production on the backside of the pouch. The DayPack features adjustable straps, flexible Lycra bottle pockets, a secure closure system, and an integrated zip pouch that turns into a hidden pocket when the pack is unstuffed.
